

# :: Workshop 5.-6.9 2019 in STU MTF Trnava ::

## Workshop agenda

5. September .....	2
9:30-12:00 Working part 1 .....	2
12:00-13:00 Pause .....	2
13:00-16:30 Working part 2 .....	2
6. September .....	3
9:00-12:00 Working part 1 .....	3
12:00-13:00 Pause .....	3
13:00-16:00 Working part 2 .....	3

## 5. September

*9:30-12:00 Working part 1*

**Project leader** :: The global project progress / Scientific level - Deliverables + Budget-costs /

**WP1 :: Summary and project progress – all partners**

(Note: collecting information about events related to Horizon and Partner Search, which were visited by partners from the beginning of the project)

**WP2 :: Evaluation of the Partner Search – all partners**

(Note: Horizon calls for education ended - potential is in Research Infrastructures, however it is question of top-management of universities - the future seems to be the collaboration with Ukraine)

**WP3 :: Information exchange about experiences with the created educational technology system - all partners**

- IBM BOX-cloud service
- WpadV4 beta-software off-line
- WpadV4 beta-software on-line (MTF virtual machine IP: 147.175.130.30)
- Other possibilities: Microsoft Share Point (STU)

*12:00-13:00 Pause*

*13:00-16:30 Working part 2*

**WP4 :: Experiences with design of the Educational packages – all partners**

- Basic info and discussion to the Eva Volna model of Soft Computing package in V4+1 languages
- Project leader - demonstration of 3 variants of working with WPadV4 when designing the EDU-packages: manual-mode | automatic one-click-mode | their combination
- Individual presentations including experiences with modelling the EDU-packages on the shared remote desktop (IP: 147.175.130.30)
- Shared design using WPadV4

**WP5: Educational robot – STU-FEI (Android), IROB (Design Ideas)**

## 6. September

9:00-12:00 Working part 1

**WP4 :: Shared design using WPadV4 and BOX (see the deliverables plan in the project proposal) when modelling:**

- **EDU-Packages**
- **Library / Writer**
- **Info-Science / Batch – Retrievals**

**WP5 :: Personal Memory System (HLT)**

(Note: presentation of the designer of the personal memory system + Utility model Application + HLT=Speech recognition/WPadV4/TTS)

12:00-13:00 Pause

13:00-16:00 Working part 2

**WP1 + WP5: Planned activities for September**

**WP4: Evaluation of practising of the shared design**

(Note: discussion to each category of the planned deliverables and potential implementation into testing outputs within university teaching)

**Project management & Future work**

(Note: evaluation of the level of integrating the expertise of partners, added value for V4+ strategic grants, possibility to continue within International Visegrad Grant, or other type of international projects as the V4+ACARD Consortium)

**Where:** Room 3.129 in [https://www.mtf.stuba.sk/english/institutes/institute-of-applied-informatics-automation-and-mathematics.html?page\\_id=3917](https://www.mtf.stuba.sk/english/institutes/institute-of-applied-informatics-automation-and-mathematics.html?page_id=3917)
